Important to Parents.

WINER'S

CANADIAN VERMIFUGE

A CERTAIN REMEDY FOR WORMS

THIS remedy is safe in its operation, and more easily administered than any other. The Greatest Cause of Death among children is to be attributed to Worms. They are ... the more fatal because less suspected. Were parents to give this subject more attention, and carefully observe the symptoms which indicate the existence of worms, thousands of lives of many children would no doubt be saved. Some of the symptoms are as follows: the countenance is often pale or leaden color, and suffused with occasional flushes; the eyes are heavy and dull, bad breath, itching in the nostrils, the sleep is disturbed, the patient often awaken in great fright, and is liable to starting and grinding the teeth, the appetite is irregular being sometimes voracious and at other times feeble ...

Winer's Canadian Vermifuge has acquired a reputation far exceeding that of any other medicine of the kind, and is daily increasing in popularity wherever it is known and used, it is universally approved. It possesses properties which no other article of the kind does ... is more prompt and efficient in its action, and entirely free from ingredients which have any but a beneficial effect, the health of the patient being always improved even when no worms are discovered. Physicians prescribe it, and to use the language of one in high standing who resides in Cleaveland, Ohio, consider it "the only article of the kind he ever saw that was so uniform and prompt in expelling worms" it may indeed be relied on with the utmost confidence, as it has never been known to fail; this is the reason why *all* who have used it will not use any other.

We have in our possession a number of certificates from physicians and others of respectability, who all testify to its ... highest efficacy, and recommend it as a never failing remedy.

READ AND BE CONVINCED.

We the undersigned have registered a medicine prepared by Mr ... this town designated J Winer's ... Canadian Vermifuge, and being fully satisfied with ... confidently recommend it as a safe ... remedy for the expulsion of worms ... from ...

... Licentiate of the Royal College of Surgeons in Ireland

Messrs J Winer & Co Sirs—My child of five years of age, was for more than two years severely afflicted with worms during which time we gave her different medicines recommended in such cases but they produced no beneficial effects. I at length procured a bottle of your Canadian Vermifuge, and gave it to her, which caused her to pass a large number of worms, since then she has been in the enjoyment of perfect health. From my own experience, I would recommend your Vermifuge as being the most safe and effectual ... for worms now in use. Yours truly

It is located on Washington street, within five minutes walk of the great Southern and Western Rail Road Depots, and the business sections of the City. It is adjacent to the Park, and the Cupola commands a beautiful view of the Harbor and the adjoining towns.

The House has been constructed after the most approved plans, with all the modern inventions that minister to the comfort and convenience of the Traveler, and the Constructor's long experience in Hotels has enabled him to introduce many improvements, which are, as yet, peculiar to this Establishment. It is built of Quincy Granite and contains *one hundred and fifty Rooms* conveniently arranged in suits and single apartments, well ventilated, and supplied with an abundance of pure soft water.

The Furniture was made to order from the best patterns, with special regard as well to comfort and convenience, as luxury and splendor.

AMERICAN AND FOREIGN OFFICE

And Agency of the U S Patent Office Washington

22 State Street—Boston.

THE subscriber, by appointment from the Commissioner of Patents, is Agent of the U S Patent Office for the purpose of receiving and forwarding to the same all such models specimens of ingredients and manufactures as shall be intended to be patented, or deposited therein which will be received and forwarded, free of expense or risk to their owners, and with all possible despatch. The subscriber will prepare Caveats, Specifications Assignments and all the necessary Papers and Drawings, will make researches into American and Foreign works, to establish the validity or utility of inventions and render advice on all legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble, in obtaining their patents. The experience of fifteen years practice—an extensive collection of rare works documents, decisions, &c on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established, and to which daily additions are being made, together with accounts here kept of inventions patented at Washington, enable me to afford important assistance and information to inventors desirous of securing Patents which in other respects might be difficult of attainment.

DR. S. O. RICHARDSON'S
CONCENTRATED

Sherry-Wine Bitters.

THE Proprietor of this medicine offers to the public the result of an extensive practice and a thorough investigation of the laws which govern the human system.

It cannot be denied by those who have become acquainted with the singular virtues of these Bitters that they possess a pre-eminence over all others now in use, for the diseases which they profess to cure.

It is a well known fact, that most diseases arise from a derangement of the Stomach and Bowels, in youthful, adult and declining life.

The extensive sympathies which subsist between these and every other part of the living body is the foundation of Nervous Diseases of all kinds—Irregular Appetite, Languor Drowsiness, Wandering Pains, Headache, Lowness of Spirits &c.

And these in their turn, give birth to Dyspepsia, Palpitation of the Heart, Shortness of Breath, Jaundice Piles, Fever Inflammatory Humors, Coughs and a host of diseases which embitter life and poison all sources of enjoyment.

The distinguished character of these Bitters is most striking, their operation being more or less powerful according to the violence of the disease. When used in appropriate quantity, in cases of slight derangement of the Stomach and Bowels, caused by costiveness or a slight bilious difficulty and the like where nature needs assistance to prevent more serious consequences, they will be scarcely felt.

On the contrary, in obstinate cases they frequently operate more powerfully, causing two or three evacuations daily until the circulating fluid becomes purified. This accomplished they act on the system in connection with our food, each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor.

AFTER experimenting for several years the subscriber is able to offer to the public an article of

inside. Old Buildings and Fences, which have been standing for ten or twenty years without being painted, are now coated with this composition and have an appearance nearly equal to new. Boards upon buildings and fences which have not been planed, are readily covered with it and it is a very superior article for covering wherewith which inclines to rub off, for it perfectly prevents the rubbing off, and is very brilliant.

John S. Sayward,—Editor.

TUESDAY, OCTOBER 19, 1847.

Governor Dana's Proclamation, and his Orders against free thought!

We have published the Proclamation of the Governor of this State for a day of Public Thanksgiving and Praise. It is a singular document and should arrest the attention of the whole people.

While its chief reasons for thankfulness are found in politics, it nevertheless contains a command to the clergy not to introduce the subject of politics into their pulpits on the day set apart for thankfulness on account of political blessings.

The Governor forgets that when he wished to rule the people, mouth, and he insolently commands them not to murmur. He forgets that one of the chief blessings secured to the people by our political institutions is religious freedom—free pulpit as well as a free press, and he alters his commands as to what subjects shall not be introduced into the pulpit of this State.—Were his power equal to his will, he would introduce the Inquisition upon our free soil—its spirit he has fully shown, but in a weakness that makes him ridiculous.

This proclamation of Governor Dana is a virtual denial on his part of the right of every citizen of Maine to examine into the principles and the measures of the rulers—a denial of the right of free thought, and of free speech—a denial of the right of the pulpit to be free, and of the clergy to determine what subjects of discourse will best promote personal purity and advance the public weal.

We ask the free thinking, and free speaking, liberty loving people of Maine to read the following paragraph which we copy from the Proclamation of Governor John W. Dana:—

"Let not the voice of murmuring disturb the songs of praise. Let party bitterness and sectarian zeal be shut out. Let not the day be desecrated, or the house of God profaned, by political harangues, assaults upon the institutions of our sister States, or denunciation of the terms of Union. But let us all join in a general festival that another year has passed, and we are still a united, prosperous and happy people."

Here we have the commands—the orders of the Governor, in which he shows no lack of disposition to have these orders enforced. But there is cause for devout Thankfulness to Almighty God, that this petty tyrant, although bearing the title of Governor, has no power placed in his hands to establish a censorship over the minds of the people, or over the pulpits which they sustain, nor a particle of authority to punish any one for a disobedience of his orders.

It is of interest, however, to note what principles of liberty and what ideas of republican freedom, lie in the mind of Governor Dana, as revealed by this public document. He well knew, and he probably regretted it, that he possessed no power to enforce his tyranny over the mind and the conscience of the people of Maine, yet he has shown himself willing to do what he could in the way of censuring those who exercised the right of giving utterance to their convictions, regarding the wrong doing of our government—and the atrocious injustice of slavery.

We deem this proclamation an outbirth of genuine locofoco principles. Here they appear undisguised; forced out, by dint of weakness of the administration in defending its own wickedness. It is virtually admitted, as a foregone conclusion that the administration cannot stand an examination of the moral side of the question relative to the war and slavery.

The proclamation suggests to the ministers of religion throughout the State, the subject of civil and religious liberty, and the freedom of the pulpit, as subjects of discourse on the day of the Annual Thanksgiving. We trust the subjects thus forced upon their attention will be improved in every pulpit in Maine.

☞ A correspondent scarifies most unmercifully a coterie of young people who make the meetings of the Lyceum an occasion for tittering, giggling nonsense, to the great disturbance of the good people in their vicinity; who attend the Lyceum for the purpose of listening to the regular lecturer. We hope this caution will serve to correct the evil instead of pointing out unmistakably the transgressors, as our correspondent appears to have done.

☞ Mr Hopkins the popular teacher of music to the thousands, has commenced in his school of several hundred pupils, the preparation for a magnificent exhibition of songs and Floral Processions. It will be something new, rich, and attractive. We wish them ample success and remuneration because he richly deserves both fame and fortune for his labors in the musical education of the juveniles in our city.

Exclusive moral suasionists say: 'Force and law cannot make men virtuous.' Why then are they not in favor of abolishing all laws against vice? (Cold Water Fountain.

For the reason that those laws are necessary to restrain men from evil and to protect the community against the offenders. Keep it in mind dear friends, ever in mind, the marked difference between *restraint* and *reform*.

LAW REPORTER—Oct. 1847.

This work continues to come to us laden with its usual supply of valuable legal reading. The work has with its present number closed the first half of its tenth volume since the commencement of its publication under the editorial charge of our old friend P. W. Chandler Esq. During this time it has acquired a well earned reputation and the largest list of subscribers ever enjoyed by any law publication, we believe, in the country. Embracing as it does among its contributors the first legal minds in the United States it has justly won its way to a high degree of patronage and popularity.

With the present number the connection of Mr Chandler with the publication ceases and the editorial sceptre passes into the hands of another. Who is to be his successor is not announced any further than the remark that the publication is relinquished 'to a gentleman who can not fail to render it worthy of continued prosperity.' We can only add so mote it be.

☞ Mr. Whipple, of Boston, will lecture before the Lyceum on this and also on Thursday evening next.

Rev. F. Hedge's Letters.

The Rhine.

Darmstadt, Aug 2d, 1847.

From Aix la Chapelle by rail to Cologne, where the pilgrimage of the Rhine usually begins—Cologne is a fine city notwithstanding the annoyance which Coleridge so wittily commemorates and—to judge from my own experience—greatly exaggerates. Whether his statistics on this point are correct or not give me Cologne with its choice of offences rather than London with its one everlasting and suffocating coal-smell. Besides have we not here a present and sufficient remedy in the depot of the world-celebrated Farina, the fountain head of all sweetness? Here again, in Cologne, antiquity has set its seal on every stone! Here again is something of which no likeness can be found on our side of the world.

These walls, this market, with its Latin inscription, 'ad expeditionem mercatura,' testify of generation which existed before our Atlantic had risen from the deep. According to the books a colony of the Ubii Cologne, was named by Claudius Cæsar, in honor of his wife, Colonia Agrippina. Hence the name Cologne. On the twenty four gates of the city are still seen the letters C. C. A. A. Colonia Claudia Agrippina Augusta.

The Cathedral exceeded my expectations in the grandeur of its proportions, though not in the elegance of its detail. Only the choir with the adjoining chapels was completed when the building came to a stand in the middle ages, of the front also a portion is of ancient date. After so long an interval the work is now resumed and it is expected that the south of which Frederic William IV laid the corner stone will soon be completed. The whole when finished will be the finest building of its kind i. e. the finest specimen of German or Gothic architecture in the world. The skulls of the three Kings of Cologne, alias the three magi, in plain English, the three wise men of the East Casper, Melchior and Balthasar, I left undisturbed in their jewelled repository;—heathen that I am, valuing the two dollars entrance money more than the consecrated and chiefest relics of the Church; although a very respectable looking and intelligent person assured me that the journey of the Magi to Cologne was matter of history and that there could be no doubt whatever of the identity of these bones. Equally authentic are the bones of the eleven thousand virgins who accompanied St Ursula from England, in the Church which bears her name. Older than the Cathedral, and indeed older than gothic architecture, is the Rathhaus or city hall, a grand old pile in which the Roman style still prevails, a witness of the earliest age of this ancient city. In the Rhine street they still show the house in which Rubens was born and in which Maria de Medici died. An interest beyond either of these names attaches to the little village of Kemp hard by, from which the celebrated Thomas à Kempis derived his origin and his name.

Four hours sail brought me to Bonn, the birth place of Beethoven and to the burial place of Niebuhr both of whom are honored with appropriate monuments. Two miles from the city rises the Kreuzberg, or hill of the Cross, whose summit commands an extensive view of the Rhine. In the old church which crowns this hill, there is a broad flight of stairs, with an elegant balustrade, all of the costliest rose colored marble, whose thirty steps the pilgrims at Easter ascend on their knees. When Napoleon occupied the city, a French dragoon attempted to ascend these stairs on horseback. The horse stumbled and the man was killed, which of course, was considered a special judgment for the sacrilege. It is not permitted to repair or replace the two or three stones which were chipped by the horse's hoofs, but the fracture remains to this day a salutary memorial of the wrath of the virgin or saint whose image or relic at the top constitutes the aim of this yearly pilgrimage.

In the crypt below I saw a sight of horrible interest—the bodies of five and twenty monks ranged in open coffins around the walls, in the costume of their order, dried to mummies by virtue of some quality of this cave which prevents corruption. A more ghastly spectacle it is impossible to conceive. The faces as the sacristan held the lamp to each in turn, exhibited every variety of hideousness which mortality can put on. The skin a brown leather, the teeth and even the nails in some instances were still perfect. The oldest of these bodies is four hundred years old, the youngest was laid there somewhat less than a century ago. A few years since the authorities of the place received a packet from England, which, when opened, contained a finger of one of these monks abstracted by a traveller three years before, as a memorial of the place, and now restored in a penitential mood.

From Bonn to Mayence, the voyage of the Rhine is a constant *crescendo* of interest and beauty. Every nook and sweep of the river has been sketched and every point of the shore has its record or its song. Imagine the most picturesque scenery dotted with vineyards, bustling with feudal ruins and storied with romantic legends, and you have the whole in a word.—There is nothing like it in the world, and never can be. Fairer rivers, vineyards more luxuriant, mountains more sublime may be found elsewhere, but this combination of natural with legendary interest is peculiar to the Rhine. The ages which overhang and memorize this flood, the feudal ages which have left their records in these stately ruins can never return. The knights who reared these frowning battlements were a race such as the world will never behold again. Not only "their bones are dust, their swords are rust," but their type has perished forever from the earth. The lover of German literature will feel the full significance of Goethe's little poem—the Spirit's greeting to the passing vessel—as his sails beneath these castellated cliffs.

"He stands upon the turret high,
The hero's noble wraith,
And to the skiff that passeth by,
'Fair speed the voyage!' he saith.

Behold these sinews were so strong,
This heart so strong and wild,
Such pith did to these bones belong,
So high the board was piled.

One half my life I stormed away,
One half in rest I drew,
And thou, thou mortal of to-day,
Thy mortal path pursue!"

The traveller who would enjoy the Rhine aright should first have studied its legends. But he should study them in the spirit in which they are handed down, and not like the critic with whom I conversed as we passed the Mouse tower, who assured me that Bishop Hatto, as it would seem from the most authentic documents was a man of singular virtue, and that the legend by which he is principally known to us, like so many others, was an invention of the monks of whom he was the conscientious churchman was a stern reprover.

The Rhine boats are very inferior craft compared with our river boats. I should like to see the sensation which an American steamer would create on these waters. But an American steamer calculated for the North river or the Penobscot, could not navigate these waters, which in many places are too shallow for so large a description of vessel. For the rest, these boats are well stored with all sorts of provisions; in fact, they are floating restaurants. And this, from a glance at the deck and the employment of those who occupy it, would seem to be their true destination; not to furnish a conveyance for lovers of the beautiful, but to furnish a perfect order for overs of good living; not to afford the means of beholding the river, but to afford the means of eating the best. Trays with ice, coffee, chocolate and other dainties are circulating from morn till noon, an then the dinner-table, in fine weather, is spread upon deck sheltered by an awning from the sun, and the enormous German dinner begins. The dishes are not placed upon the table but handed to the company course after course through an interminable line of indigestible messes, and they partake in turn of all. To see these Germans eat, one would suppose there was no such thing as dyspepsia in the world. I cannot help thinking there must be some organic difference between them and us, for sure I am that no pretended stomach could digest the heterogeneous mass of viands which these people dispose of without any apparent inconvenience. Smoking in these boats knows no barrier but ranges uncontrolled from stem to stern, on deck and in the cabin. I never entered the head of a thorough bred German that tobacco can be disagreeable to human sense. I saw one, a meek, contemplative man with a pipe as long as himself, walk up to a party of English girls who were sketching and writing at a table by themselves, coolly inspect their doings awhile with a suspended puff and then emit a cloud of smoke which for a moment completely hid them. They were too well bred to manifest any displeasure and he went away apparently thinking he had afforded them real satisfaction. He evidently meant to do so; it was his benediction.

F. H. H.

The City of Mexico.

Since the city of Mexico has become the scene of operations by the army under Gen Scott, some knowledge of the place has become more desirable. It was formerly seated on several islands, in a salt water lake, to which there was no entrance but by three causeways, two miles in length each. The circumference of the city, exclusive of the suburbs was formerly about 10 miles, and it contained at least 30,000 houses, with several large temples and three palaces. It was taken by Cortez, in 1521, after a siege of nearly three months—which being defended from street to street, was nearly ruined, but was afterwards rebuilt. In process of time the water in the neighborhood was dried up, and Mexico is now three miles from the lake. The cathedral is said to surpass any thing of the kind in the work. Revolution has reduced the overgrown wealth of the rich to a competence, and thereby broken the chains which galled the laboring classes. In 1629 the city was inundated by the overflowing of the lakes, and 40,000 persons were drowned. Its present population is supposed to be about 200,000 persons.

The distance from Washington to the city of Mexico is 2,700 miles, and intelligence is communicated from one place to the other in about 14 days. Tradition says that Mexico was founded in 1331, about two centuries before its conquest by Cortez. Humboldt says it is undoubtedly one of the finest cities ever built by Europeans in either hemisphere. Many of the streets are nearly two miles long.—What is now termed The Republic of Mexico was conquered by Spain in 1521, and remained a Spanish province until 1813, when she became an independent Republic, composed of 19 States, with a population of 8,000,000 inhabitants.

The Southern Whigs.

The Hon John M. Berrien, of Georgia, a few days since addressed the people of one of the Counties in that State, by special request, on several of the great topics of national interest. In the course of his remarks he gave a succinct view of the principles of the Whig party, which, he considered, were embodied in one word, and that word *conservatism*. "That conservatism," said he, "which would guard the Constitution as a sacred treasure—which would look to it as the ark of the covenant of our political, civil and religious liberties—that conservatism which would preserve the coordinate branches of the Government, limit each to its respective defined powers, and ensure a strict accountability of public officers—that would see to it that there was a clear grant of power for each governmental act—that conservatism which adhered to our Constitution, and had preserved us a people."

In relation to the Tariff, Mr Berrien made among others these observations:

"The Whig principle consisted in levying duties upon imports to raise a revenue for the support of the government, and such duties only as would be necessary to defray the expenses of the government economically administered, and to make such reasonable discriminations within the limits of revenue as would protect American manufactures; or in other words, a revenue tariff with discriminations within the revenue standard for the purposes of protection. * * * He said the alternative questions presented to the people were a tariff and direct taxation. The Whigs preferred the former. He spoke of the income of this year, as not a fair test, in his opinion, of the amount of income from the customs, on account of the great demand for breadstuffs on the other side of the Atlantic, and the large imports consequent upon the state of affairs created by the failure of the grain crops in Europe."

Mr B said the Whigs believed still, as they ever had done, in the constitutionality of a National Bank, and were as much in favor as ever of the principle of distributing the nett proceeds of the sales of the Public Lands; but both these questions he considered now in abeyance—the former because the State Banks were furnishing the country with a convertible paper currency; and the latter because the heavy debt saddled upon the country by the present administration rendered it highly probable that there would be no property in it during the present generation.

On the subject of the Mexican War, Mr Berrien spoke at some length:—

"He characterized it as the offspring of misdirected ambition, and said it commenced First, in a violation of the Constitution, in which the President had assumed the war making power, and was justified by no public necessity. Secondly, it had been conducted, so far as the administration was concerned, without wisdom and without energy. Thirdly, it looked to no great and patriotic result; it was a war of conquest, not contemplated by the Constitution; a measure at once pregnant with consequences dangerous to the well being of the Union, and destructive of the harmony of the people. All of the provisions of the Constitution were peaceful in their character, so far as conquest was concerned. It provided for no standing army; its army was the militia, and that belonged to the States, and could only be called out to execute the laws of the Union, to suppress insurrection, and repel invasion. It provided for the common defence only of the good people of these United States. It was peaceful in all its frame work, as to all the machinery for acquiring territory by the sword."

PULMONARY CONSUMPTION.

From its having almost always baffled the most skilful medical treatment, has been very justly termed the "Opprobrium of Physicians"; and, until within a few years, was generally considered incurable, although many medical men of the highest standing, among whom we may mention *Laennec* and his friend *Bayle*, both distinguished authors,—admit that this much dreaded disease may be cured, even in its advanced stages, when the lungs are not completely disorganized. The remedy which we now offer, Wistar's Balsam of Wild Cherry, for the cure of this disease, not only emanates from a regular Physician, but has also been well tested in all the complaints for which it is recommended. It is not my intention, therefore, either to cloak it in mystery, or in any way deceive the public by overrating its virtues; on the contrary, I shall simply endeavor to give a brief statement of its usefulness, and flatter myself that its surprising efficacy will enable me to furnish such proofs of its virtues as will satisfy the most incredulous that Consumption may be and "CAN BE CURED," if this medicine is resorted to in time.

DR. LEIDY'S Blood Pills.

THE TRUTH—the whole Truth, and nothing but the Truth!—attested by thousands of respectable citizens! Dr. Leidy's SARSAPARILLA BLOOD PILLS, ENTIRELY VEGETABLE, are the best, safest, and most effectual purgative of the Stomach and Bowels, and purifier of the Blood and Fluids of the Body, known.

YOUNG AND OLD, MALE AND FEMALE, can take them with equal safety, requiring no change in living, restraint from occupation, or fear from exposure to all kinds of weather while taking them.

DR. N. B LEIDY,

Proprietor and Manufacturer of the only genuine SARSAPARILLA BLOOD PILLS,

is a regular Druggist, Chemist and Apothecary. A regular Physician, Graduate of the University of Pennsylvania, member of the Philadelphia Medical Society &c., attested by Drs. Physick, Chapman, Jackson, James, Dewees, Horner, Gibson, Coxe, Parish, Betton, Rev. W. H. Delaney, R. Adrian, L. L. D. J. L. Biddle, Esq., &c. &c., all now, or lately, of Philadelphia.

Be it known, therefore, that Dr Leidy, would not hazard his reputation, or dishonor the profession, or institutions to which he belongs, by offering to the community either Pills or other Medicines that did not possess the virtues he attributes to them; and therefore, knowing the efficacy of his Sarsaparilla Blood Pills, does not hesitate

TO PROCLAIM TO THE WORLD,

that if his Pills will do no good, either as a purgative of the stomach and bowels, or purifier of the blood, then no others will, because they contain all the virtues that can be combined in Pills and will be found more efficacious, at all times, than any others.

THE STRONGEST RECOMMENDATIONS. that can be given from persons of known respectability and standing, accompany the directions.

IMPORTANT MEDICAL NOTICE.

DR. PETERS has REMOVED from Endicott street to No. 13 Wilson's Lane, BOSTON, a few steps from Dock Square—where he can be consulted in all cases of Diseases of a delicate nature. Dr. Peters has been in practice in Boston for the last seven years; and is now acknowledged to be the most experienced Physician now advertising for the cure of certain maladies. His cures are unlimited—his knowledge of delicate diseases unbounded; he spares no pains or expense to relieve those who honor him with their confidence.

IN SCROFULA,

his experienced eye, at once, discovers the state and cause of the evil, without first experimenting to ascertain the location of the disease, as do Quacks and Nostrum venders. He perceives the difficulty at once, and applies the right remedy.

IN CHRONIC AFFECTIONS

of the Bladder, he is always sure of performing a perfect cure—having a perfect knowledge of the organs affected, and the proper medicine to be applied.

IN GONORRHEA,

a single glance enables him to ascertain the precise state of the disease, and to apply his never-failing remedies to the particular parts, and the complaint will disappear in a short time after the application, never to appear again.

IN SYPHILIS,

his medicines stand in the foremost rank of the medical world—removing the disease from the system, no matter of how long standing or difficult it may be.

Also, the following diseases come under the special care of Dr. Peters—viz: Kings Evil—Salt Rheum—Tetter—Cutaneous Affections—Seminal Weakness—Nocturnal Emissions, superinduced by secret bad habits when young, &c. &c.

TO FEMALES,

Dr. Peters would say that he has a perfect knowledge of their systems, and can warrant them a perfect cure from all complaints peculiar to their sex. The following are a part of the complaints which come under his particular notice—viz: Suppression, Irregularities of the Menses—Whites—Pains in the Back and Sides—Falling of the Womb—Green Sickness, &c. &c.

N. B. Persons at a distance can consult Dr. Peters by letter, post-paid, describing their complaints, and enclosing a remittance. Direct "Dr. Peters, 13 Wilson's Lane, Boston, Mass." Medicines can be sent by Express to all parts of the United States and the Canadas.

TO SEAMEN,

Dr. Peters would say that his medicines can be taken at sea, and are peculiarly fitted for their use, being concentrated into a portable and compact form. If those who are about taking medical advice, will call upon Dr. Peters, he will give them ample proof of his abilities to perform a perfect cure, however protracted their case may be.

DR. E. R. SMILIE'S Alkaloid Xabon,

FOR CLEANSING TEETH.

IN the preparation of this article there is nothing used which will prove in the slightest degree injurious to the structure of the Teeth, as its chemical components preclude the possibility of injury to any of the properties entering into their composition. From its alkaline principle it corrects the vitiating fluids of the mouth; whether arising from acid eructations of the stomach, or the decomposition of food collected about the interstices of the teeth and gums, by its removal, preventing the deposite of tartar, causing the teeth to assume a clear surface, free from the usual stain at the junction of the gums common to the use of the various dentrifices now in vogue, removing from the breath the unpleasant odors usually attending the above diseases.

N. B. It has received the approbation of Drs. Bell and Booth of the McLane Asylum, and others, who would only give their views in accordance with their belief for the benefit of the public

FIRE PROOF IRON,

FOR

ROOFING WINDOW SHUTTERS, &c.

THE subscribers beg to call the attention of all those interested in roofing, to their GALVANIZED TIN PLATES, and to the many advantages which they possess over all metallic and other substances hitherto used for this purpose, possessing as they do, the strength and lightness of iron without its liability to rust, having now been tested several years, both in this country and in Europe. They are also less subject to expansion and contraction from sudden changes of the atmosphere than common Tin Plate Iron, Zinc &c. or any other metal now used for roofing, and consequently form a much better and cheaper roof, requiring far less frequent repair, whilst the first cost is but a trifle more.

The subscribers would also call the attention of all dealers and workers in metals to this metal for other purposes to which from their properties it can be applied. In general, where it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere. And they would especially call the attention of those interested in TELEGRAPHIC LINES, to their Galvanized Wire, which is now almost entirely used in Europe, and which answers every purpose as a conductor of electricity, costing only about one half as much as copper, and possessing equal durability with that metal.

Having lately also proceeded to work in this city for the purpose of galvanizing Nails, Spikes, Bolts, Wire, &c., they will be able to furnish any articles which may be desired. A supply of Plates (manufactured in Europe) constantly on hand, from 6 to 32 wire gauge. — GEO. B. MOREWOOD & CO. — Nos. 14 and 16 Beaver-st, New York.

[illegible] This Medicine [illegible] REMOVING THE CAUSE, renders the cure CERTAIN and PERMANENT.

TO MARRIED LADIES

Married Ladies are almost invariably subject to the painful and dangerous disease, the PILES, with consequent inflammation of the Stomach, Bowels and Spine, weakness of the back, flow of blood to the head, &c. The Electuary is perfectly safe for Pregnant Ladies, and the most useful Cathartic that can possibly be used, as it will not only remove the Piles and all inflammatory diseases WITHOUT PAIN or IRRITATION, but will ensure an easy time, a safe delivery and a sound constitution in the offspring.

CURE FOR LIFE GUARANTIED

The Electuary contains NO MINERAL Medicine, no Aloes, Colocynth, Gamboge, or other powerful and irritating purgative. No fear of taking cold while under its influence, no change in diet necessary. If taken according to the directions, A CURE FOR LIFE IS GUARANTIED.

GREAT SUCCESS OF UPHAM'S

PILE ELECTUARY.

Portland, Me., March 11, 1847.

Dr Upham — My dear Sir — I cannot express to you my sincere and heartfelt thanks for the wonderful cure I have experienced by the use of your truly valuable Pile Electuary. I have been a perfect martyr to the Piles, [illegible] so much so that I became reduced to almost a skeleton, with loss of appetite and general derangement of the digestive organs [illegible] and in fact I was a misery to myself. I was obliged to give up my business. I had tried all kinds of medicine, had the best advice the [illegible] and this place could afford, spent much in [illegible] twice submitted to painful operations. I had become perfectly tired of life, and at the suggestion of my friend I was induced to try a box of your medicine. The first I found to relieve me slightly, still I procured a second, and a third, and I assure you when I took the last through I found myself getting well fast. I kept on, and now I am a well man. My dear Sir, language cannot express the heartfelt thanks of a father once more restored to health and now in a condition to support any large family, dependent on me.

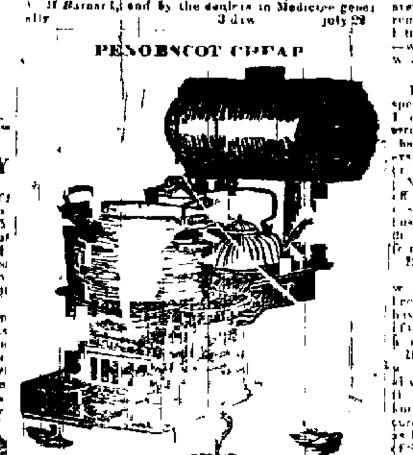

You can use this letter as you please.

Yours respectfully, SAMUEL CHARLTON.

Hundreds of certain cases deemed utterly hopeless have firmly established its superiority over every former Medicine discovery.

Dr. Townsend's

SARSAPARILLA

The Most Extraordinary Medicine in the World!

This extract is put up in quart bottles; it is six times cheaper, pleasanter, and warranted superior to any sold. It cures diseases without vomiting, purging, sickening or debilitating the patient.

The great beauty and superiority of this Sarsaparilla over all other medicines is, while it eradicates disease, it invigorates the body. It is one of the very best Spring and Summer medicines ever known; it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood, a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed within the past two years more than 35,000 cures of severe cases of disease; at least 5000 of these were considered incurable. More than
3000 cases of Chronic Rheumatism,
2000 cases of Dyspepsia,
4000 cases of General Debility and Want of Energy,
7000 cases of the different Female Complaints,
2000 cases of Scrofula,
1500 cases of the Liver Complaint,
2500 cases of Diseases of the Kidneys and Dropsy,
3000 cases of Consumption,
and thousands of cases of diseases of the blood, viz — Ulcers, erysipelas, salt rheum, pimples on the face, &c., together with numerous cases of sick headache, pain in the side and chest, spinal affections, &c. &c.

This, we are aware, must appear incredible, but we have letters from physicians and our agents from all parts of the United States, informing us of extraordinary cures. R Van Buskirk, Esq, one of the most respectable druggists in Newark, N J, informs us that he can refer to more than 150 cases in that place alone. There are thousands of cases in the City of New York which we will refer to with pleasure, and to men of character. It is the best medicine for the preventative of disease known. It undoubtedly saved the lives of more than

5,000 CHILDREN, THE PAST SEASON,

as it removed the cause of disease, and prepared them for the summer season.

UNITED STATES OFFICER.

Capt G W McLean of the United States Navy and member of the New Jersey Legislature, has kindly sent us the following certificate. It tells its own story.

Rahway, Jan 3, 1847

A year since I was taken with the influenza, and my whole system left in a debilitated state. I was induced to try Dr. Townsend's Sarsaparilla, and after taking two or three bottles, I was very much relieved, and attribute it entirely to the said Sarsaparilla. I have continued taking it, and find that I improve every day. I believe that it saved my life, and would not be without it under any consideration. G W McLEAN.

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control of the most obstinate diseases of the blood. Three persons cured in one house is unprecedented.

THREE CHILDREN

Dr Townsend — Dear Sir — I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine. They were afflicted very severely with bad sores; have taken some four bottles, it took them away, for which I feel myself under deep obligation. Yours respectfully, ISAAC W CRAIN, 106 Wooster st.
New York, March 1, 1847.

Brooklyn, Jan 3, 1845

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "the turn of life," should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed for several years by using this medicine. Nor is it less valuable to those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all of the delicate diseases to which women are subject. It braces the whole system, renews permanently the natural energies — by removing the impurities of the body, not so far stimulating the system as to produce a subsequent relaxation — which is the case of most medicine taken for female weakness and disease.

GREAT FEMALE MEDICINE

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, [illegible] or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system — no matter whether the result of inherent cause [illegible]

OPINIONS OF PHYSICIANS.

Dr Townsend is almost daily receiving orders from physicians in different parts of the Union.

This is to certify that we, the undersigned Physicians of the City of Albany, have in numerous cases prescribed Dr. Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations of the Sarsaparilla in the market.
H P PULING, M D.,
J. WILSON, M D., R. B. BRIGGS, M D.,
P. E. ELMENDORF, M D.
Albany, April 1 1845

The following is from one of the most respectable physicians in Long Island —

Greenport, July 10 1846

Dr Townsend: Dear Sir — It is with satisfaction that I say to you, that I have recently witnessed in several cases, the most beneficial results from the use of your Extract of Sarsaparilla. Being engaged in the practice of medicine, I have prescribed it in several cases, and never without benefit. In the removal of diseases arising from a deranged state of the digestive organs, jaundice, &c., it far excels any thing I have ever before offered to the public. You will please send me two dozen, &c &c. Respectfully yours, S C PRESTON, M.D.

RHEUMATISM

This Sarsaparilla is used with the most perfect success in Rheumatic complaints, however severe or chronic. The astonishing cures it has performed are indeed wonderful. Other remedies sometimes give temporary relief; this entirely eradicates it from the system, even when the limbs and bones are dreadfully swollen.

Hear Mr Seth Terry, one of the oldest and most respectable lawyers in Hartford Conn. The following is an extract of a letter received from him:

Dr. Townsend — I have used one bottle of your Sarsaparilla, and find it is excellent in its effects upon a chronic rheumatic pain to which I am subject, from an injury occasioned several years ago in a public stage. Please send me two bottles to the care of Dr. Seymour. I have conversed with two of our principal physicians and recommended your Sarsaparilla. SETH TERRY.
Hartford, March 12, 1845.

PILES! PILES!! PILES!!!

Dr. Townsend's Sarsaparilla is no less successful in curing this distressing complaint than for diseases of the Blood, Dyspepsia, Rheumatism and Nervous Debility. Read the following. —

Dr Townsend: Dear Sir — The effects of your Sarsaparilla are truly wonderful. For the last six or eight years past I have been subject to severe attacks of the piles, during which I have suffered all the tortures of that complaint, and have despaired of ever finding relief, except in death. I have the pleasure to inform you "there is yet a balm in Gilead." I have used two bottles of your Sarsaparilla, and feel no remains of my old complaint. I send you this for publication, and any person you may refer to me, I would be happy to inform of the benefit I have received at your hand.
Yours truly, JOHN HALL, 49 Fulton-st.
July 5, 1846,

CAUTION!

Owing to the great success and immense sale of Dr. Townsend's Sarsaparilla, a number of men who were formerly our agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, &c. They generally put it up in the same shaped bottles, and copy our certificates and advertisements, claiming that theirs is far superior and four times stronger than Dr Townsend's, hoping thereby to deceive the public. Some use a fictitious name, a few use their own, some of these unprincipled men publish spurious certificates, [illegible] persons to allow the use of their names, to which they put "Esquire," to give them respectability. JULES HAUEL'S

PREPARATIONS!

TRY THEM, AND JUDGE FOR YOURSELF!

TO THE PUBLIC.

Wonderful! That's Right — A proper Principle adopted

YOU cannot object to giving my articles a trial. If they are not found to be as represented, return them, and your money will be cheerfully refunded. — Remember, there is no *quackery* — no *humbug* — here. A trial will cost you nothing — so if any body is humbugged it will be myself. With the utmost confidence I recommend to the particular attention of the public the following articles. First —

MY EAU LUSTRAL HAIR RESTORATIVE.

This universally approved and admired article, free from ardent spirits, pungent essential oil and other destructive materials, cleanses the hair expeditiously, renders it beautifully bright and imparts to it the delicate fragrance of the flowers. It excites the scalp to a new and vigorous action, cleanses it from *scurf* and *dandruff*, and its effect in the restoration and growth of the hair is unequalled by any other preparations of the kind. Second —

MY EAU DIVINE DE VENUS AND NYMPH SOAP.

Composed of an Eastern Botanical Discovery of Surprising Efficacy, for rendering the SKIN SOFT AND FAIR, as well as imparting a Delicate Roseate Hue to the Complexion

No lady's toilet is complete without this article. Its effect on the skin is strikingly beautiful; it removes all harshness, clears the complexion, and leaves a delicate roseate hue that cannot be surpassed. Third —

MY SHAVING CREAM.

"It is a luxury to shave with Jules Hauel's Premium Cream."

This Cream is acknowledged by all who have used it to be superior to any in use. It produces a fine and rich lather. It does not *smart* or *irritate* the skin, on the contrary, it is very soft and highly emollient. No person will use any other, after once using this admired preparation. Fourth —

MY DEPILATORY POWDER.

This Powder has never failed to produce the desired effect. Its composition is infallible and warranted to remove superfluous hair. Many ladies have used it, who were afflicted with hair on the sides of the face, arms, &c., giving a masculine turn to the features, and who testify of its happy effect. Fifth —

MY CELEBRATED VEGETABLE LIQUID HAIR-DYE.

A Chemical Result, to enable persons to dye their hair instantaneously without the least inconvenience.

"My white hair has been changed like magic by using one box only of Jules Hauel's celebrated 'Vegetable Liquid Hair Dye.'"

For changing red or grey hair, whiskers, eye-brows, &c., to a brown, black, or chestnut color. The frightful evil consequences need not be feared from its use — it is altogether harmless. This preparation is warranted not to wash out, nor to injure the health of the hair, and retain all its softness and brilliancy.

From a celebrated Chemist of the City of Philadelphia.

"DEAR SIR, — It is with a high degree of pleasure that I furnish you with my testimony in favor of your *Eau Lustral Hair Restorative*. I have been surprised at its wonderful and beneficial results, and have no hesitation in saying that I believe it to be the most valuable and extraordinary discovery ever known for stopping and reproducing a fine and luxuriant head of hair. In regard to the *Nymph Soap, Hair Dye, Rose Tooth Paste, Depilatory Powder,* and *Shaving Cream,* I can say that they are scientifically compounded, and that it is a real luxury to use them. Yours, &c

From CONSTANT GUILLOU, Esq, Attorney at Law, and Notary Public, Philadelphia

"From personal acquaintance with Jules Hauel — an experienced and fashionable Perfumer and Chemist — I was prepared to appreciate the numerous testimonials in favor of his different fashionable preparations. One or two of them is in my own family, and some of them personally, I have more than realized these favorable anticipations, — they are, what they profess to be scientifically prepared and compounded. I have at all times since my experience, been convinced of the great merit of the *Eau Lustral Hair Restorative, Shaving Creams, Nymph Soap* and, in fact, all the popular preparations of Mr Hauel.

It is with the greatest pleasure that I can recommend the above articles to all of my numerous friends, and the public. They are, in their way, invaluable. CONSTANT GUILLOU."

From DANIEL J DESMOND, Esq., Attorney at Law, Consul General of Pontifical States, Vice Consul of Austria, Sardinia, Portugal and Tuscany.

"To MR. JULES HAUEL.

SIR — Though I have not the pleasure of a personal acquaintance with you, yet a sense of duty to yourself and the public generally, constrains me to bear my unsolicited testimony in favor of your different fashionable preparations. On trial of them in my own family, and some of them personally, I do positively declare that they are what they profess to be, skilfully prepared and compounded. — I am convinced of the great worth or merit of the Eau Lustral Hair Restorative, Shaving Cream, Nymph Soap and Rose Tooth Paste. — I am fully satisfied of their intrinsic worth, and do heartily recommend them to all for the use and purpose they are intended. Nothing can excel the beauty and lustre imparted to the hair by the use of the Eau Lustral Hair Restorative. It invigorates the hair and promotes its growth. The Shaving Cream is unsurpassed and decidedly excellent, being a fine and highly emollient composition — it does not smart or irritate the skin, while the Nymph Soap operates beautifully upon the pores of the skin, and cleanses it from all impurities. The Rose Tooth Paste imparts to the teeth a pearly whiteness, and is well calculated to preserve the teeth and gums from decay. These are in their way invaluable.

"I have seen some of my friends who have used your Vegetable Liquid Hair Dye, its effect is really a wonder. It dyes the Hair in an incredible manner in a few minutes, and the color of the hair is really beautiful, and none will detect the artificial coloring. DANIEL J DESMOND."

THE GRAEFENBERG PILLS.

THERE ARE THE MOST CONCLUSIVE REASONS why this class of Medicines denominated PILLS should be made the means of imparting a [illegible] blessing to the human family. Suppose, for example, that a high order of talent, long and anxious observation, and great outlays of learning and experience brought to bear upon the invention of an article — a PILL. Why may not this long [illegible] vision of medical science be crowned with that attends the sacrifices of [illegible] other things? There is no sense [illegible] simplest state of the [illegible] that a Pill thus produced will be as perfect [illegible] can be made by man. Twenty-five years [illegible] on subject will give a man of skill [illegible] [illegible] labor has been bestowed upon

Graefenberg Vegetable Pills,

and they are presented to the public with [illegible] allelted in the whole history of [illegible]

It will be seen in tracing the history of all great inventions, that they were not made or [illegible] the arrival of what may be termed [illegible] TIME. The mariner's compass for instance [illegible] invented until the "fullness of time" [illegible] The loadstone always lay at man's feet, [illegible] know what a wonderful and unerring guide [illegible] in its silent bosom, until the [illegible] time drew near when distant continents [illegible] were to be unveiled. Behold it now transf[erred] [illegible] binnacle of the adventurous sailor [illegible] much far away upon unknown Oceans, [illegible] fully sailing with sight of familiar land [illegible]

So with the discovery of the New World; [illegible] shores was to arise. This Giant Nation to [illegible] glory, a mission far beyond the conception of the [illegible] est fancy. The Old World had reached its [illegible] tiny, the "fulness of time" drew near for the [illegible] of the New, and behold the immortal Columbus [illegible] the forecastle of his drenched and leaky vessel [illegible] So with the invention of printing, of steam, of the magnetic telegraph. Each of these [illegible] "fulness of time," marked, distinct and Providential.

IN MEDICAL SCIENCE THE SAME GREAT PHILOSOPHICAL PRINCIPLE IS EQUALLY MARKED. Most beautiful are the illustrations and proofs of this which are to be found in the history of the world. We can trace them from the Mosaic dispensations down to the present hour, all of them teaching us the lesson and giving us the hope that *something yet better* to heal human maladies is at hand.

That this principle is as true of Medical as of Physical science is clearly shown in the

GRAEFENBERG GAZETTE,

which is furnished gratuitously to all who wish it. — The

But a most sad thought here comes in. So countless are the impositions which are practiced upon the public by pretenders, and so numerous and boastful are the medicines advertised, that the reader may be [illegible] to believe in this Great Remedy. A word, therefore, on this point.

In the first place, READ THE GRAEFENBERG GAZETTE. No matter how sceptical you may now be, this paper will convince you. Thousands have been convinced in every State and Territory in the Union; and [illegible] from distinguished statesmen, jurists, clergymen [illegible] [illegible] The bare enumeration [illegible] would fill this page. Let the reader turn to the most convenient agency for a copy of the Gazette, without delay.

FROM A DISTINGUISHED GENTLEMAN OF BOSTON

Gentlemen,

I cannot refrain from troubling you with a few lines to express my great pleasure in being able to say that I have experienced the greatest relief from the effect of your Pills. For many years I have suffered much from constipation, which has disarranged my whole system, and I have not known a day's good health for many years past, and being an old man I despaired of ever again enjoying life; but a friend recommended me to try your Pills, which I did, although without any confidence. The result, I am happy to inform you, has far exceeded my expectations, the cause of my suffering is nearly removed, and I feel my health and strength daily renewed, and I am satisfied that the merit of your Pills, when tested, must be acknowledged by the whole community, and will become the most popular medicine of the day."

FROM JUDGE ———, OF GEORGIA

SIR,

Since writing to you last upon the subject of my ill health, I have been taking your medicine, and am pleased to say, that they have been of great service to me, and if they continue to give me the relief I have already felt, I shall bless the day you sent them. I need not allude again to the sufferings I have before told you of, but take it to persevere, and hope to have the [pleasure] next time I write, to give you the happy intelligence of a perfect cure. I have heard of many instances [illegible] neighborhood where they have performed some extraordinary cures.

FROM AN EPISCOPAL BISHOP

Gentlemen — I consider it to be the duty of every Christian to make known to the world any great blessings that they may have derived by accident or from any discovery of their own; and with this sentiment strongly impressed on my mind, I feel great gratification in having it in my power to speak in the highest terms of the valuable discovery you have made in the production of your Pills. I was induced to try them from the philosophical manner in which you have reasoned on the subject, and I must do myself the pleasure, and you the justice to say, that I had no conception so extraordinary an effect could be arrived at. My complaint has been that of the Liver, from which I despaired of getting relief, but since taking your Pills, I find my general health, spirits and appetite so much improved that I hope to find myself able to endure, without bodily suffering, the duties of so arduous Profession. In future I shall resort to your agent for more Pills when needed. With great consideration and gratitude, I am, &c
